Experience

Fiesta Tacos / Scheduler and server

May 2017 - PRESENT, Azusa, Ca

As a taco server for catering, I am responsible for providing exceptional service to our clients and guests. I will be greeting guests and taking their orders for tacos, ensuring that they are satisfied with their choices, and making recommendations when necessary. I will also be responsible for preparing and serving the tacos, ensuring that they are presented beautifully and are delicious.

Delgado Rentals / Rental Property Administration

September 2019 - PRESENT, Azusa, Ca

Direct collection of monthly assessments, rental fees, and deposits and payment of insurance premiums, mortgages, taxes, and incurred operating expenses.

Investigate complaints, disturbances, and violations and resolve problems following management rules and regulations.

Market vacant space to prospective tenants through leasing agents, advertising, or other methods.

Inspect grounds, facilities, and equipment routinely to determine the necessity of repairs or maintenance.

Self-employed / Basic Automotive Technician

August 2020 - present, Azusa, Ca

I am responsible for providing basic maintenance and repair services to vehicles. This includes tasks such as oil changes, tire rotations, and brake replacements. My duties also include diagnosing and troubleshooting mechanical issues, conducting vehicle inspections, and recommending necessary repairs or replacements. I am expected to have a good understanding of automotive systems and be able to use diagnostic equipment to identify and fix issues. Additionally, I must ensure that all work is performed accurately and efficiently, while maintaining a safe and clean work environment. Effective communication skills and the ability to work as part of a small team.

School project / Computer Technician

December 2022 - present, Fullerton

As a computer technician, I have extensive experience working on various computer projects, including building custom computers and creating websites. I have a strong understanding of computer hardware and software and can troubleshoot and resolve technical issues quickly

and efficiently. I have worked on several high-profile projects, including building computers for gaming and video editing, creating websites for small businesses and non-profit organizations, and developing software for data analysis. I am skilled in programming languages such as Java and Python and have experience with web development tools such as HTML, CSS, and JavaScript. My attention to detail and ability to work collaboratively with clients and team members have been key to my success in this field.
